

(a) one 3D sphere on the ground-truth surface, hidden in every view and filled

(b) the matched split: three identical patches per scene

	view 1	view 2	view 3	**evidence**	view 5	view 6
A imagined (U)	hidden	hidden	hidden	hidden	hidden	hidden
B observed (S_m)	hidden	hidden	hidden	seen	hidden	hidden
D keeps two per view	seen	seen	seen	hidden	seen	seen

Same fill, size, depth and texture: one image cannot tell A from B.
